OUR SERVICES

## Benefits and Support

In Kalstein France, we take care of the full satisfaction of our customers, that is why we provide value-added services of the highest level based on our experience.

### Online Inductions and Trainings

In any part of the world, receive your induction or training from our specialized team of engineers

### Quick Response

Our work team is always available to response all your consults or questions, in order to support you in any situation.

### #Letsgivemore

Thanks to your purchase, a donation will be made to a non-profit foundation that fights against breast cancer and helps most vulnerable communities.

### Technical Support

Enjoy of personalized advice for the correct preventive and corrective maintenance of your equipment, thanks to Kalstein's manuals and articles, special catalogues and video tutorials.

### Delivery Logistics

We take care of all the necessary logistics for the dispatch of your goods, whether is by sea, land or air.

### Kalstein Worldwide

With more than 25 years growing with our customers, Kalstein's multiformat and modern content, is now present in more than 10 countries and increasing.

## KALSTEIN® Spectrophotometer Multi Angle Spectrophotometer With 8 Angles Model YR05491 // YR05492

**#Letsgivingmore** ♥

Thanks to your purchase, a donation will be made to a non-profit foundation that fights against breast cancer and helps most vulnerable communities.

# KALSTEIN® Spectrophotometer

## Multi Angle Spectrophotometer With 8 Angles

Model YR05491 // YR05492

### Product Description:

The multi-angle spectrophotometer adopts industrial-grade MCU and is equipped with 3 measuring angles, under the superior performance of the optical measurement system supported by the multi-angle spectrophotometer has excellent performance in multi-angle chromatic aberration measurement, even in the curved surface, but also has a high measurement accuracy and stability. Kalstein Multi-angle spectrophotometer is used to measure the color difference for the surface paint which is affected by different viewing angles and viewing conditions. It can provide accurate and consistent color measurement for metallic, pearlescent and other complex special effect finished products.

### Technical Characteristic:

- ✓ Multi-angle measurement Adopt 3 illumination sources, 1 receivers to measure 3 measurement angles at the same time
- ✓ More intuitive display Touch screen can display all Angle measurement results, more intuitive view of the comprehensive data.
- ✓ 256 Image Element Double Array CMOS Image Sensor The higher optical resolution ensures the measuring speed, accuracy, stability and consistency of the instrument. The core technology makes it as the same platform with international standards and complete compatibility.
- ✓ Adopt Full spectrum LED light source with blue enhancement The Full spectrum LED light source with blue enhancement ensures sufficient spectral distribution in the visible light range, avoids the spectral loss of LED in a specific band, and ensures the accuracy of instrument measurement results and low cost maintenance.
- ✓ Concave grating spectrophotometric technology Using concave grating spectrophotometric technology, with higher resolution, makes color measurement more accurate.
- ✓ Professional-grade white board Professional-grade white board, high hardness in the surface, stable optical performance
- ✓ Higher quality Industrial grade real-time processing MCU, supports WIFI, Bluetooth 5.0 transferring more stable and reliable.
- ✓ Ergonomics Novel and fashionable appearance design The instrument appearance design is easy to operate, and the hand holding position and the measurement button are well-
- designed, which can meet different holding habits, smooth and fine surface, from the high-precision appearance treatment process.
- ✓ Color camera preview, can clearly observe the measured area Built-in color camera positioning, can accurately judge the object measured position, and improve the measurement efficiency and accuracy.
- ✓ Multiple color measurement space, multiple observation light sources Offer CIE LAB,XYZ,Yxy,LCh,β XY,DIN Lab99 color space, And D65, A, C, D50, D55, D75, F1, F2 (CWF), F3, F4 and F5, F6 and F7 (DLF), F8, F9, F10 (TPL5), and F11 (TL84), F12 (TL83/U30) A variety of light source, which can meet the special measurement demand under different measurement conditions.
- ✓ Easily analyze data The screen can intuitively display spectrum/data, sample chromaticity value, color difference value/figure, pass/fail results, color simulation, sample effect value, effect difference value and other data, convenient to view while also greatly improve the user's work efficiency.
