Anhui Zhongke Duling Commercial Appliance Co.,Ltd

COMPANY PROFILE

Anhui Zhongke Duling Commercial Appliance Co.ltd is a high-tech enterprise which specialized in designing, manufacturing and marketing of laboratory & medical refrigerators and freezers, such as pharmacy refrigerators, ultra low temperature freezers, deep freezers, cold room, customized commercial freezers and cold chain equipment .

We pursue the concept of "For a healthy world, For a healthy future" with the strong technical support from R&D team. We produce environmentally friendly products for high-end brand technical areas like research institutes, hospitals, laboratories, commercial retails with the dedication to build a green bridge for health of the humanity and the world.

We had obtained the national & international certification of ISO13485, ISO9001, ISO14001, strike forward to the international first-class enterprise with the quality management goal of orderly, continuous improvement and controllable risk.

Operating honestly, focusing on quality and complying with the law is our basic principle. We aim to serve for the society and for a better environment with producing environmentally products and offering best customer service.

CERTIFICATE OF HONOR

Medical device production license

FOR A HEALTHY WORLD
FOR A HEALTHY FUTURE

METHERBRAND

“Safety, Profession, Environmental Protection”

In order to meet the needs of the international and domestic market, relying on specialized technical R&D and production team, we have introduced advanced refrigeration technology from Europe to build high-end medical research equipment in China. METHER brand not only adhering the principle of the company’s management of “For a healthy world, For a healthy future”, but also effectively interpret the company’s innovation concept to meet the increasingly diversified needs from domestic and abroad. With the introduction of western advanced technology and constantly innovation of R&D team, we had obtained the world’s unique double cooling system and double cascade system technology of ultra-low temperature freezer and applied multiple national invention patents in 2017.

SERIES

-150°C Cryogenic Freezer

MDF-150H128

LCD Touch Screen

SAFETY

- Malfunction alarms including high and low temperature, power failure, sensor error, clean-filter, and condenser clean, abnormal voltage, low battery thermostat failure,
- Capable of producing two types of alarm outputs, audible buzzer and visible flashing light.
- Door open feature standard and USB port for temperature data downloading standard on upright models. Remote alarm contacts.

INSTALLATION AND APPLICATION

- 380v / 50HZ electrical design, stable power supply, rapid cooling, rapid cooling in 6 hours
- Suitable for 10°C to 32°C ambient temperature

FILED PROVEN RELIABILITY

- 7 inches touch screen to display current temp, history temp, all alarm records and data.
- Standard with USB port to download alarm and temp data
- Non-flammable HC refrigerant to guarantee users' safe.
- Emergency stop to protect operator

KEY DESIGN FEATURES

- Microprocessor-controlled system designed for controlled range of -40°C to -150°C or cabinet space with 1°C increment
- Settable high temperature and low temperature alarms.
- Optional temperature recorder, storage racks and storage box

ENERGY SAVING

- Unique door seal design for the minimum loss of cold temperature during a door opening
- 200 mm thickness without CFC insulation to minimize cabinet heat gain and to improve temperature stability.

This product is specially designed and manufactured for long term storage of various biological product, including viruses, germs, erythrocytes, leucocyte and cutis. Applications can be found in blood banks, hospitals, epidemic prevention services, and research institutes, laboratories in electronic and chemical plants, bio-logical engineering institutes and marine fishery companies.

MODEL	Ambient temp. (°C)	Temp. range (°C)	Sensor	Voltage/frequency (V/Hz)	Inside material	Capacity (L/cu.ft)	Exterior size(W*D*H)(mm)	20GP/40GP/40HQ	USB	Certification	LCD Touch Screen

METHHER SERIES

-86 °C Dual System

MDF-86V728D

This product is specially designed and manufactured for long term storage of various biological product, including viruses, germs, erythrocytes, leucocyte and cutis. Applications can be found in blood banks, hospitals, epidemic prevention services, and research institutes, laboratories in electronic and chemical plants, bio-logical engineering institutes and marine fishery companies.

-86 °C Methher Dual System

FILED PROVEN RELIABILITY

- Unique insulated inner door design for four separate storage compartments to minimize frost buildup inside the chamber.
- Specialized control system design for a well-balanced operation of dual refrigeration system.
- Positive filed proven reliability record.

SAFETY

- Malfunction alarms including high and low temperature, power failure, sensor error, clean-filter, and extremely high ambient, abnormal voltage, thermostat failure, low battery, condenser clean, door ajar.
- Capable of producing two types of alarm outputs, audible buzzer and visible flashing light.
- Door open feature standard and USB port for temperature data downloading standard on upright models.
- Remote alarm contacts.

INSTALLATION AND APPLICATION

- Wide range operating voltage system from 187V to 242V designed to allow units installed in areas with poor voltage condition
- Suitable for 10°C to 32°C ambient temperature

METHHER -86°C Dual System

ENERGY SAVING

- Unique door seal design for the minimum loss of cold temperature during a door opening.
- High performance VIP insulation panels to minimize cabinet heat gain and to improve temperature stability.

KEY DESIGN FEATURES

- Microprocessor-controlled system designed for controlled range of -40°C to -86°C for cabinet space with 1°C increment
- Settable high temperature and low temperature alarms.
- Automatic clean-filter alarm and sensor error alert.
- Adjustable storage shelf height
- Optional temperature recorder, storage racks and storage box
- Double security with two independent cooling system, when one system breakdown, the other system could maintain the inner temperature at -70°C.

2 individual inner doors can be opened independently to minimize frost buildup inside the chamber
 Unique door seal design for the minimum loss of cold temperature during a door opening
 Stainless Steel handle to ensure the door open conveniently even in the case of frost

Excellent Doors Seals
 5 gasket seal, 4 seals for out door

7 Inches touch Screen
 All data display on the screen, easy to observe

Write Board for short records which would pass to next user

Green Handle, easy to use with 2 locks

Special V.I.P (Vacuum Insulation Panel) design with extra insulation factor cuts down heat loss to cabinet by 25%

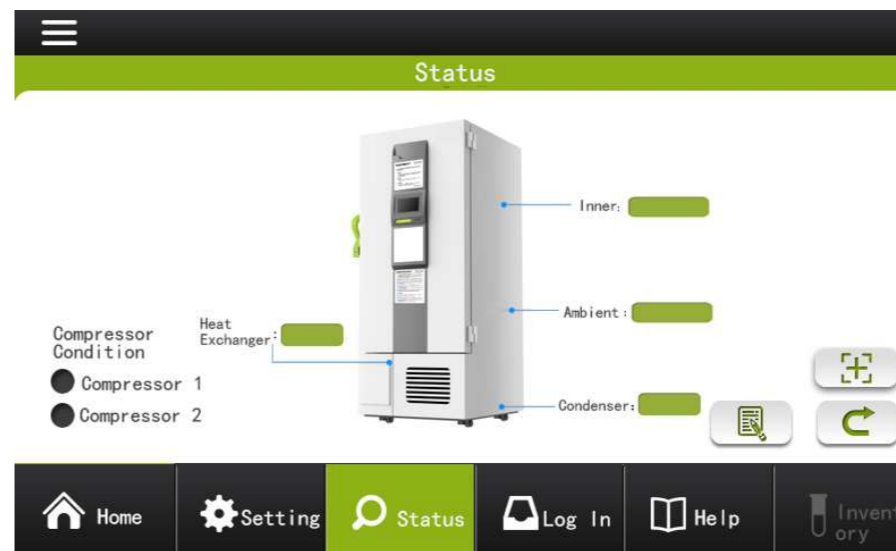

Big condenser for better heat dissipation

Changeable sensor box or you could put another sensor from here to monitor or record temperature

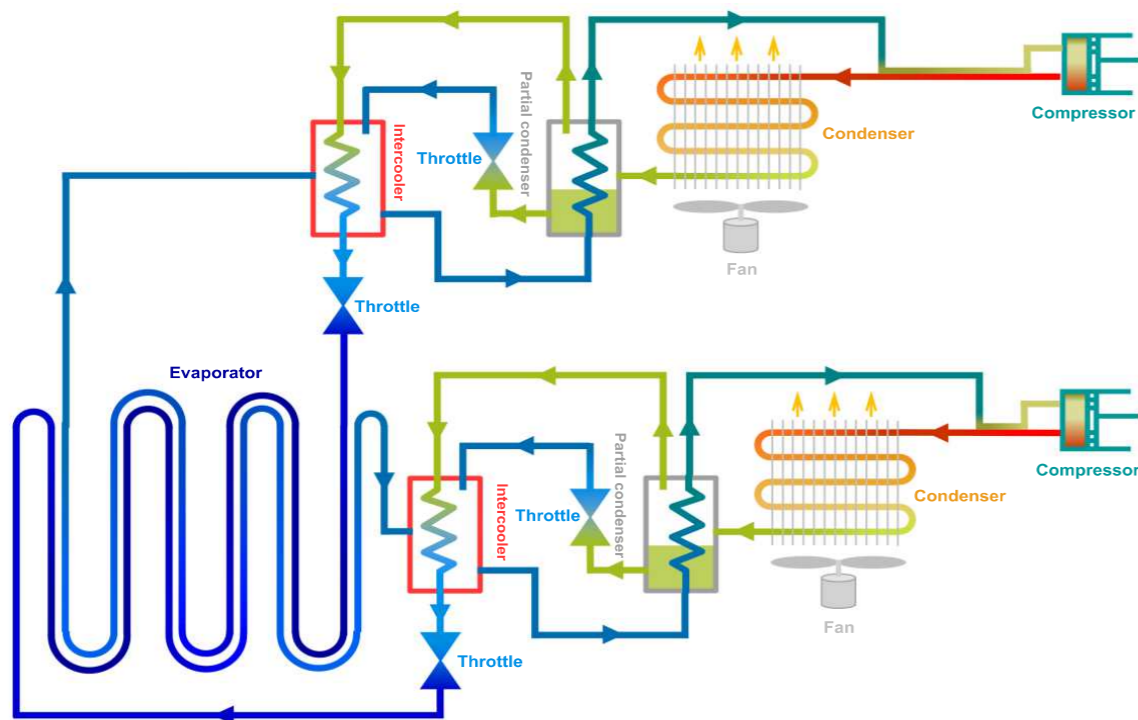

-86 °C Metherr Dual System --7 Inches Touch Screen & Functions

Alarm	Alarm Triggering Condition
High Temperature	Temperature reaches the warm alarm limit
Low Temperature	Temperature reaches the low alarm limit
Power Failure	Equipment loses power
Door Ajar	Door open period exceeds 5 mins
Probe Failure	<ol style="list-style-type: none"> 1. Main cabinet temperature control sensor fails 2. Condenser sensor fails 3. Ambient sensor fails 4. Heat exchanger sensor fails 5. Heat exchanger temperature fails
Low Battery	Battery capacity runs low or battery switch is not turned on

-86 °C Self- Cascade System

CHARACTERISTIC FUNCTION

- Safety door lock design to prevent abnormal door open
- Wide voltage for AC187V-AC242V
- Mute design for salient needed environment
- Digital display with big screen, easy to check
- Excellent thermal insulation peformance with silicone door seal design (second door seal optional)
- Mobile and fixable wheel for move

BOX

- The box is made of high quality cold rolled steel plate, and the surface is treated with advance anti-corrosion phosphatic spraying process with elegant orange powder coating. High-class 304 SUS inner box, durable and reliable.

SAFETY GUARANTEE

- Temperature high/low alarm, sensor malfunction alarm, thermostat failure alarm
- Audible and visible alarm
- Keyboard lockable, password protection o pe change running parameter randomly
- Display running parameter with real-time monioring to guarantee the stability of freezer

TEMPERATURE CONTROL MODE

- With the international famous brand computer temperature control system to keep the inner temperature accurate and stable. Temperature adjusted from -40°C~-86°C
- High light digital display
- High/low temperature alarm, the alarm temperature can be set as needed
- Platinum esiance temperature sensor, sensing temperature accurately

REFRIGERATION SYSTEM

- Imported brand compressor work with CFC-Free environmental refrigerant
- High density insulation foam layer with better heat preservation effect
- Optimized self-cascade refrigeration system to provide faster cooling speed with lower power consumption

PROMED

—Medical Freezer

This product is designed to store vaccines, blood plasma, and many other biological materials. installations can be found in researching institutions and clinical sites in life science, electronic testing and medical markets.

-40°C Medical Freezer

MDF-40V268E

MDF-40V278W

MDF-40V328E

MDF-40V358
MDF-25V358

KEY FEATURES

- Microprocessor control, adjustable temperature range: -30°C to -40°C
- LED digital display and increment at 0.1°C
- Permanently lubricated cooling fan for safety and longevity.
- Independent inner door to avoid more cooling leaking out, and provide more stable inside temperature performance
- High density CFC-Free urethane foam insulation.

ERGONOMIC DESIGN

- USB data logging and temperature recorder (optional).
- Build-in lock with safety and beauty
- Lockable caster design for customer to move as needed

RELIABILITY

- Chemically stable, CFC-free, commercially available and environmentally safe refrigerant.
- Optimized refrigeration system designed to maximize cooling effect and temperature uniformity
- Microprocessor control, digital display, adjustable temperature range: -30°C--40°C
- LED digital display for clear observation,

SAFETY

- Multiple malfunction alarms to detect high and low temperature, sensor error, power off, temperature controller malfunction, door ajar.
- Two types of alarm indications: audible buzzing and visual flashing light.
- Corrosion proof cabinet interior design
- Power failure protect: the device would be attack by the high current when all devices restart simultaneously, the start-delay function would protect device from the damage

ELECTRIC CONTROL

- Wide voltage tolerance design with applicable voltage range of 187-242V/AC

-40°C Medical Freezer

MDF-40V358
MDF-25V358

RELIABILITY

- Single temperature control system with double door construction.
- Flexible and easy storage by height-adjustable shelf trays
- Maintains the quality of the samples during preservation
- 2 completely independent chambers with their own temperature displays

FEATURES

- Height-adjustable shelf trays allow you to adjust the inside of the chambers according to the size of the samples. By changing the height of the shelf trays, the unit can accommodate various sizes of samples including stored in your conventional models.
- Door latch with provision for a padlock for extra protection of samples.
- Equipped with separate doors that suppress the leakage of cold air during opening and closing of the doors, and manual defrosting that helps avoid temperature impact on the samples.

EASY TO CLEAN

- Top and bottom chambers are equipped with 2 independent refrigeration circuits that enables separate temperature settings and defrosting for the two chambers.
- With the capability to defrost the top and bottom chambers separately, the unit makes it easy to transfer samples during defrosting.

MDF-40V528/
MDF-25V528

KEY FEATURES

- MDF-25V358/MDF-25V528:-10°C~-25°C
MDF-40V358/MDF-40V528:-30°C~-40°C
- 2 Independent doors, 2 Compressors, 2 Test Holes, 2 Displays.
- Standard with thermal printer to record 1 year's data

SAFETY DESIGN

- To securely preserve/manage the valuable samples, in addition to a standard-feature door lock, a hole in the latch allows a padlock to be attached.
- Security functions that help protect valuable samples with a temperature control capability that inhibits the change in temperature inside the chamber, and an alarm/security function that prevents errors, the unit maintains the quality of the preserved samples.
- Temperature recorder (optional)
- Front-mounted display/control panel located at convenient height for easy access
- Insulated door with gasket for sample protection and uniformity
- 2 USB port interface

Double LED digital display, which can separately display the temperature data and various alarm information of the upper and lower rooms

Two test holes are equipped on the right of the cabinet, installing the temperature recorder to detect the temperature change of each room

Top and bottom chambers are equipped with 2 independent refrigeration circuits that enables separate temperature settings and defrosting for the two chambers. With the capability to defrost the top and bottom chambers separately, the unit makes it easy to transfer samples during defrosting.

The freezer room is equipped with a standard aluminum alloy door handle with pressure relief function, which is convenient for frequent opening and closing in a short time

-40°C Medical Freezer

MDF-40V278W

Pull-down test at 32°C ambient

Inner 7 drawers

-40°C Medical Chest Freezer

MDF-40H485

MDF-40H305

MDF-40H105

KEY FEATURES

- Chemically stable, CFC -free, commercially available and environmentally safe refrigerant.
- Microprocessor control, adjustable temperature range: -30°C to -40°C
- LED digital display and increment at 0.1°C
- Permanently lubricated cooling fan for safety and longevity .
- Wide voltage band for 187V~242V

CHARACTERISTIC FUNCTION

- Door lock design to avoid abnormal door open
- Big screen for easy observation
- Standard testing hole

SAFETY

- Multiple malfunction alarms to detect high and low temperature , sensor error, power failure, temperature controller malfunction
- Two types of alarm indications: audible buzzing and visual flashing light.

RELIABILITY

- HIGH DENSITY CFC-FREE URETHANE FOAM INSULATION.
- Standard with 25mm test hole
- Power failure protect: the device would be attack by the high current when all devices restart simultaneously, the start-delay function would protect device from the damage

STRUCTURAL DESIGN

- Wide voltage band for 187V~242V

-40 °C Deep Freezer

-25°C Medical Freezer

RELIABILITY

- Chemically stable, CFC-free, commercially available and environmentally safe refrigerant.
- High density CFC-Free urethane foam insulation for rigidity and stable temperature.
- Microprocessor control, digital display adjustable temperature range: -10°C--25°C.
- LED digital display for clear observation.

NEW RELEASE

- MDF-25V368RF/MDF-40V368RF Temperature range: Refrigerator Room: 2°C~8°C
- Freezer Room: -10°C-25°C / -30°C-40°C
- 2 Independent temperature display, 2 Independent door: heated foam glass door + foamed door
- 3 shelves in refrigerator room; 6 drawers in freezer room.

SAFETY

- Multiple malfunction alarms including high and low temperature, sensor error, power off, temperature controller malfunction, door ajar.
- Two types of alarm indications: audible buzzing and visible flashing light.
- Power failure protect: the device would be attack by the high current when all devices restart simultaneously, the start-delay function would protect device from the damage
- Controller password protect function to avoid change running parameter randomly

KEY FEATURES

- Independent inner door to avoid more cooling leaking out, and provide more stable inside temperature performance
- Upright side door with build-in handle for easy-opening; limit door hinge to prevent collision when door open
- Lockable caster design for customer to move as needed
- Wide voltage tolerance design with applicable voltage range of 187~242 V/AC.

Microprocessor system, LED digital display, precise electronic temperature control and display, with accuracy of 0.1 °C; the temperature of refrigerator room and freezer room are displayed independently, which is convenient for observation. And the operation status and alarm type of refrigerator are displayed simultaneously.

2 independent door up and down; upper door is electric heating foamed glass door, below is foamed door.

The temperature of the refrigerator room is in the range of 2-8 °C, and freezer room is in the range of -10 °C ~ -25 °C \ -25°C-40°C.

Two test holes are equipped on the right of the cabinet, installing the temperature recorder to detect the temperature change of each room

Independent refrigeration system is used in the refrigeration room and freezer respectively, with independent display and temperature control

Alarm	Alarm Triggering Condition
High Temperature	Temperature reaches the warm alarm limit
Low Temperature	Temperature reaches the low alarm limit
Power Failure	Equipment loses power
Door Ajar	Door open audible and visual alarm
Probe Failure	1. Main cabinet temperature control sensor fails 2. Sensor fails
Low Battery	Battery capacity runs low or battery switch is not turned on

-25°C Medical Freezer

High-end professional controller with full function

Build-in temperature probe

Independent inner door to avoid more cooling leaking out, and provide more stable inside temperature performance

Tough casters with brake

-25°C Medical Freezer

PROMED SERIES

4°C Blood Bank Refrigerator

4°C Blood Bank Refrigerator

MBC-4V108

MBC-4V208

MBC-4V368

MBC-4V658

MBC-4V1008

PURPOSE

- Professional refrigerator to store blood, as well as medicines and bio products
- Suitable for blood banks, hospitals, CDCs

ERGONOMIC DESIGN

- Safety lock to prevent unauthorized access.
- Storage space designed for easy sorting of a variety of blood products.
- Caster design and interior light.

RELIABILITY AND KEY FEATURES

- Microprocessor controlled forced-air cooling with electrical heat compensation system.
- Digital temperature display for upper and lower sections in chamber with 0.1°C resolution.
- Consistent cabinet temperature 2-6°C
- High-tech integrated sensors to display and control temperature.
- Auto-defrost to remove moisture on cooling surface.
- Large digital display for ease of observation.

SAFETY

- Build-in backup battery to display temperature and to operate audible and visual alarm systems for up to 72 hours without ac power.
- Equipped with a complete temperature alarm system featuring audible buzzer and visible flashing light.
- Five alarm conditions : High/low temperature, power failure, voltage abnormal, door ajar, backup battery
- Standard with laser printer
- Standard with acrylic inner small door, for less affection on other room when one door open.

4°C Blood Bank Refrigerator

Forced air cooling system keep inside temperature stable and uniform

Individual transparent inner door can be opened independently to minimize loss of cold temperature during a door opening

Exclusive patented temperature box design, reveal the real temperature of the blood in storage

Standard test hole

Adjustable shelves, improve space utilization

SERIES

Dual System

2~8°C Pharmacy refrigerator

2~8°C Pharmacy refrigerator

MPC-5V516ADL

MPC-5V1106DL

SAFETY

- Alarm system: high and low temperature alarm, temperature controller failure alarm, power failure alarm, abnormal door opening and closing alarm, condenser high temperature alarm, ambient temperature high and low alarm, system abnormal alarm, equipped with remote alarm interface.
- Capable of producing two types of alarm outputs, audible buzzer and visible flashing light.
- Door open feature standard and USB port for temperature data downloading standard on upright models.

ENERGY SAVING

- Under low ambient temperature, it will automatically switch to energy-saving mode, while the single system runs to ensure normal operation, and under high ambient temperature, it will switch to performance mode, and both systems work at the same time.

FILED PROVEN RELIABILITY

- Good heat preservation effect, uniform internal temperature.
- Completely shielded from light, specially designed for items that need to be shielded from light. (MPC-5V516ADL; MPC-5V1106ADL)
- Visually monitor the status of internal items, and heated glass door to prevent condensation. (MPC-5V516DL; MPC-5V1106DL)

INSTALLATION AND APPLICATION

- Wide range operating voltage system from 187V to 242V designed to allow units installed in areas with poor voltage condition
- Suitable for 10°C to 32°C ambient temperature

KEY DESIGN FEATURES

- 7-inch touch LCD screen, all operations are operated through the screen, convenient and quick
- Electronic lock, you can unlock and open the door by fingerprint, swipe card, account login

PROMED SERIES

2~8°C Pharmacy refrigerator

The pharmacy refrigerators are suitable for installation in drug stores, pharmaceutical companies, hospitals, epidemic prevention centers and clinics.

2~8°C Pharmacy Refrigerator

ERGONOMIC DESIGN

- Optimized space utilization design with multi-level and adjustable shelf height to accommodate storage requirement of pharmaceutical products of various kinds.
- Safety lock to prevent unauthorized access
- Caster design and leveling legs
- LED Interior light.

FORCED AIR-COOLING SYSTEM

- Advanced forced cooling system to keep inside temperature stable and uniform. Finned evaporator with special cycle design of forced air cooling system to assure no-frost inside

CHARACTERISTIC FUNCTION

- Safety door lock design to avoid door ajar
- Big digital screen display for easy observation
- Optional testing hole
- Adjustable shelves
- Inner light design for a clear display

RELIABILITY AND KEY FEATURES

- High efficiency specialty compressor with known field reliability.
- Permanently lubricated cooling fan for safety and longevity.
- Forced-air cooling with optimized air distribution system designed.
- To achieve maximum temperature uniformity and stability.
- Optimized refrigeration system design for more effective cooling and Speedy recovery.
- Temperature variation within $\pm 3^{\circ}\text{C}$
- Adjustable temperature range 2-8°C
- Microprocessor control, digital display, and temperature adjustment with an increment of 0.1°C
- Large digital display screen.

SAFETY

- Equipped with a complete temperature alarm system featuring audible buzzer and visible flashing light.
- Capable of alerting failures due to high and low temperature sensor error, door ajar, power failure and low battery.

2°C~8°C Pharmacy Refrigerator

Equipped with a complete temperature alarm system featuring audible buzzer and visible flashing light Capable of alerting failures due to high and low temperature sensor error, door ajar, power failure and low battery

USB port for parameter information export

High efficiency fan cooling fast

Heated glass door to prevent fogging

Glycerin box accurately simulate the temperature in the cabinet

Forced- air cooling with optimized air distribution system designed To achieve maximum temperature uniformity and stability Optimized refrigeration system design for more effective cooling and Speedy recovery

Test Hole- for monitor sensor and temperature test

Optimized space utilization design with multi - level and adjustable shelf height to accommodate storage requirement of pharmaceutical products of various kinds. Safety lock to prevent unauthorized access.Caster design and leveling legs LED Interior light

2°C~8°C Pharmacy Refrigerator

- 1-Cooling State
- 2-Defroting State
- 3.Fan state
- 4-Power State
- 5-Button Lock
- 6-Door State
- 7-Power on/off
- 8.-Set
- 9-Set up
- 10-Set down
- 11-Light switch
- 12-Mute
- 13-Keybaord lock (Combined Button)
- 14-Defrost Key(Combined button)

Alarm	Alarm Triggering Condition
High Temperature	Temperature reaches the warm alarm limit
Low Temperature	Temperature reaches the low alarm limit
Power Failure	Equipment loses power
Door Ajar	Door open audible and visual alarm

METHER SERIES

-25°C / 2~8 °C Medical Freezer-Mobile Cooler

To transport and transfer blood, plasma, vaccine, reagents and special medicines in medical and logistics industry.

-25~ 2~8°C
Mether
Mobile Cooler

MDF-25H80LC

MDF-25H30LC

MBC-4V700LC
(only for blood transport)

PURPOSE

- To store and transport blood, serum, plasma, vaccine, reagents and special medicines in medical industry. Also used as medicines pass box for epidemic prevention station, blood bank, health center, CDC, animal husbandry bureau, army and logistics service, express company, pharmaceutical factory, genetic engineering.

USER FRIENDLY DESIGN

- The whole roll structure prevents collision damage.
- Multilayer stacking.

SECURITY GUARANTEE

- Functional alarm system with audible and visible
- Remote control
- Constantly alarm after power off
- Keyboard lockable

FEATURES

- Multiple voltage used as AC220V or DC12V/24V, power supply of cigarette lighter
- Whole roll PE structure
- Combined with forced air cooling system and direct cooling system
- Multi-function: 2 ranges of inner temperature:
2°C ~8 °C used as pharmacy refrigerator
-10°C ~ -25 °C used as deep freezer

METHER -25°C~30°C Mobile Cooler

-25°C / 2~8°C Medical Freezer- Mobile Cooler

Mobile Cooler

	Model	MDF-25H30LC	MDF-25H80LC	MBC-4V700LC
Specifications	shelves/basket	Basket around Evaporator	Basket around Evaporator	Blood Baskets
	Cooling method	Forced Air Cooling	Forced Air Cooling	Forced -air Cooling
	Defrost	Manual	Manual	No Frost
	Refrigerant	R134a	R134a	R134a
	Power consumption(kWh/24h)	1.2	1.6	1.6
	Noise (db)	45	46	50
	Ambient temperature (°C)	10~32°C	10~32°C	10~32°C
	Temperature range (°C)	-25/4°C	-25/4°C	4°C
Cooling system	Compressor brand/QTY	China Brand/1	China Brand/1	China Brand/1
	Sensor	NTC	NTC	NTC
	Temperature controller	Microprocessor	Microprocessor	Microprocessor
	Display	Digital display	Digital display	Digital display

PROMED SERIES

— Blood Platelet Incubator — Shaking

Blood Platelet Incubator

MDC-10

MDC-5

BOX

- SUS oscillator, mirror surface SUS shelves, box foamed with high density non-CFC material, reasonable design of air duct in the cabinet, axial flow fan makes inner temperature more uniformity with accurate temperature control

SAFETY SYSTEM

- Imported oscillation slide rail for longevity and low noise
- High/low temperature alarm, sensor error alarm, power failure alarm for 72hours, low battery alarm, door ajar alarm
- Two alarm styles: audible buzzing and visual flashing light
- Power cord with earth leakage protection

CHARACTERISTIC FUNCTION

- Disinfection with UV, set disinfection time freely, UV light would be off while door open, to protect human body
- Temperature printer can be set as needed
- Wide voltage from 187V~ 242V
- Power on/off switch, more convenient for operation
- Double transparent insulated glass door for easy observation
- Big digital display for easy observation

PURPOSE

- To store blood platelet (20°C~24°C), biological reagent (2°C~40°C), chemical products stored at (2°C~40°C)
- Suitable for hospitals, blood stations, research institutes and university labs

TEMPERATURE CONTROL MODE

- High accuracy sensor
- Microprocessor temperature control, inner temperature controlled in 22°C ± 2°C
- Intelligent controlled fan with forced cycle system to ensure inner temperature more uniform

REFRIGERATION SYSTEM

- Branded condenser fan
- Branded compressor with CFC-free refrigerant
- High efficiency refrigeration system, fast cooling speed and uniformity temperature inside
- Branded evaporator for safety and longevity
- Finned evaporator to speed up the cooling process

Blood Platelet Incubator

Controller- Big display with all information on it
Backup battery for 72 hours to support alarm function after power failure.

Printer- To printer current temperature every 15 minutes.(Printer interval can be adjust by users)

Intelligent temperature control of heating & cooling with double control loop

Stainless steel inner tank- good performance

Mirror surface SUS shelves
Imported oscillation silence rail for longevity and low noise

UV light for inner disinfection

Door- Foamed- glass door, for better thermal insulation

Platelet Incubator
